Profile

I am Mohit Makawana, a motivated individual who never shies away from work. I diligently pursue tasks until completion, refusing to leave any unfinished. I find idle moments tedious; thus, I am always engaged in productive activities. My interests include cooking, crafting, continuous learning, and applying newfound knowledge to create something innovative.

My Projects

- College microprojects:
 - 1st Year projects:
 - [All project in one repository](#)
 - 2nd Year projects:
 - [Java API with Documentation](#)
 - [Student Management System](#)
 - 3rd Year projects:
 - [Deep CNN network for MNIST](#)
 - [Bluetooth Chat app](#)
- Main Microproject:
 - This open-source Django student management portal supports student, faculty, and admin logins. Containerized with Docker, it ensures easy deployment and efficient academic management.
 - I am working on this since 3rd Semester.
 - Project link
